

***KALAMAZOO***  
**INDUSTRIES, INC.**

DS12DH 12-INCH DOUBLE HEAD  
INDUSTRIAL DISC SANDER

**BOOST PRODUCTIVITY • IMPROVE FINISHES • SHOP SMART**

# WHY THIS MACHINE IS A GAME CHANGER

Parallel processing with two sanding discs

Independent controls & reversible heads

Quick grit changes with PSA discs

Heavy duty, serviceable design

Available in 3 HP, 1- or 3-phase

Made in USA

# MATERIALS & APPLICATIONS

Ferrous metals (steel, iron): deburring, beveling, squaring

Non-ferrous metals (aluminum, brass): controlled removal

Beveling & chamfering: two operations at once

Edge rounding & deburring: clean, consistent results

Finishing & polishing: fine grits or buffing pads

# PRODUCTIVITY & ROI

Reduce  
bottlenecks by  
slashing cycle  
times

Consistency  
reduces rework &  
scrap

Downtime  
minimized with  
robust design

Investment pays  
back quickly in  
throughput

# KEY SPECS & CHECKLIST

## Specs:

Dual 12" aluminum discs

3 HP motor (1- or 3-phase)

Reversible heads, direct drive

Removable fence & access panels

Replaceable parts, leveling pads

Made in USA

## Checklist:

Independent controls

Power & drive strength

Maintenance accessibility

Parts & support availability

Lead time & warranty

# HOW TO GET STARTED

Request a quote & confirm lead time

Evaluate shop layout & wiring

Train operators on use & best practices

Benchmark throughput before & after

# GET A QUOTE OR PLACE YOUR ORDER TODAY

Turn your finishing station into a productivity engine.

Contact us today online or over the phone (269) 382-2050 for a quote or order.

Share your power specs, part dimensions, and layout.

Don't wait — the DS12DH pays for itself with saved time,

Higher throughput, and less rework.
