## **Upgrade Your Shop with the DS12V Disc Sander with Vacuum**

---

Shop owners know that the right tools make the difference between wasted time and real productivity. That's why the DS12V disc sander with vacuum is built for performance, efficiency, and cleanliness — all in one powerful package.

This versatile machine is the perfect wood shop tool and a proven asset in any metal working shop. Whether you're shaping hardwood, smoothing aluminum, or prepping steel, the DS12V gives you the control and consistency you need.

With a standard 12-inch abrasive disc, you can handle heavy material removal, precision shaping, or fine finishing. And thanks to the built-in vacuum base, you can keep your workspace

cleaner, extend disc life, and breathe easier.

### **Why the DS12V Stands Out**

- **Cleaner sanding:** Integrated vacuum system captures dust and debris at the source.
- **Reliable power:** 1 HP motor drives through tough jobs with ease.
- **Versatile table:** Adjustable 8" x 14" tilt table with angle gauge for accurate bevels.
- **Durable design:** Heavy-duty steel base and replaceable abrasive sanding discs.
- **Shop-ready:** Designed for both wood and metal applications.
