

KALAMAZOO
INDUSTRIES, INC.

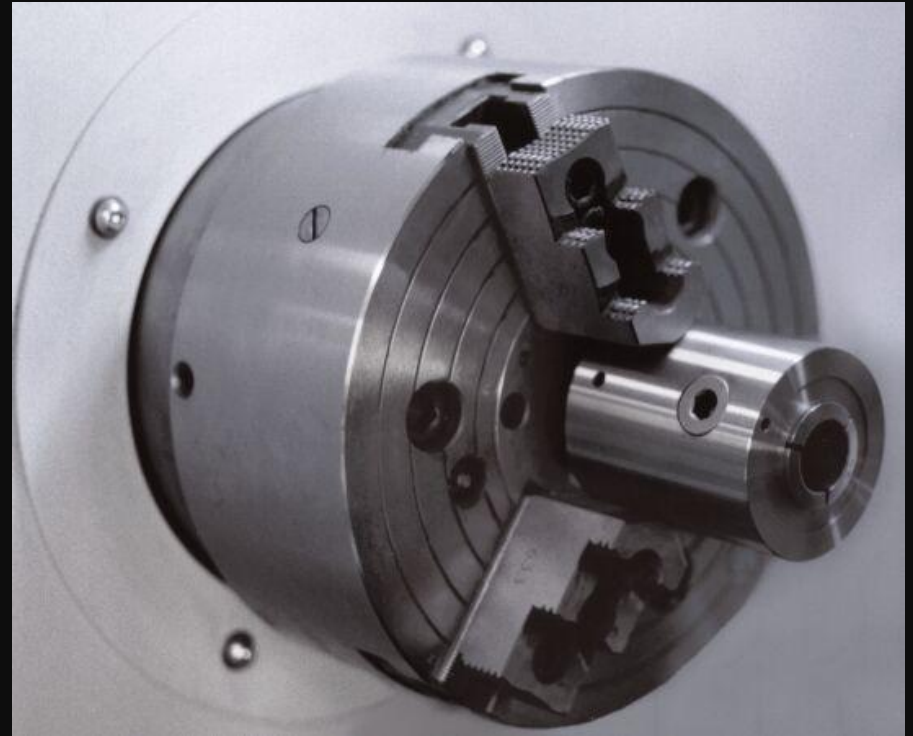

1CC 5C Collet Fixture

Precision Meets Speed

Key Features

-  Precision Meets Speed with the Kalamazoo 1CC 5C Collet Fixture!
 -  Dead-length design for consistent part positioning
 -  Mounts on mills, machining centers & rotary tables
 -  Made in the USA with replaceable parts
 -  Perfect for toolrooms & production shops
-

Benefits

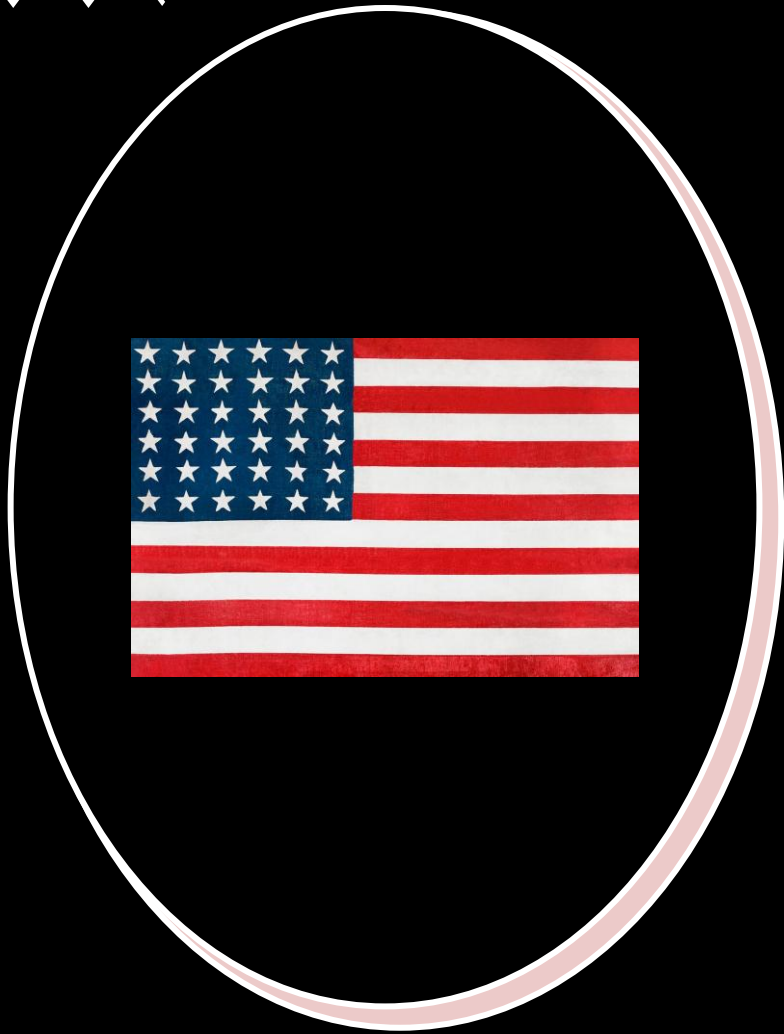

- Quick Setup & Changeover
- Dead-Length Design
- Versatile Mounting Options
- High Accuracy
- Durability
- Compact & Stackable
- **Made in the USA**

Applications

- The 1CC 5C Collet Chuck is designed for quick, repeatable workholding in various machining environments:
 - ◆ Short-run production: Ideal for small batch jobs.
 - ◆ Quick setup: Mounts directly into a power or manual chuck—no need to remove the chuck.
 - ◆ Precision workholding: Dead-length design ensures consistent part positioning.
 - ◆ Versatile mounting: Vertical or horizontal mills, machining centers, 4th axis rotary tables.
 - ◆ Stackable: Multiple units can be used for holding several parts simultaneously.
