KALAMAZOO INDUSTRIES, INC.

Boost Shop Productivity with the DS20 20″ Heavy-Duty Disc Sander

Built for fabrication and machine shop owners who need speed, precision, and durability, the Kalamazoo Industries DS20 delivers faster deburring, cleaner finishes, and consistent throughput.

Key Features & Benefits

Feature	Benefit
20″ Disc Capacity	Accommodates larger workpieces; speeds up finishing on big parts
Heavy-Duty Cast Iron Frame	Provides vibration-free stability and long-term durability
Tilting Worktable (up to 45°)	Enables precise bevel sanding and angle work with accuracy
Dust Collection Ready	Connects to external dust systems for a cleaner, safer shop
Consistent Edge Finishing	Delivers smooth, uniform edges and reduces rework
Easy PSA Disc Changes	Quick peel-and-stick changes minimize downtime
Powerful 2 HP Motor	High torque for fast stock removal and continuous operation

Real-World Value & ROI

The DS20 eliminates finishing bottlenecks, helping shops complete more work in less time. By reducing labor hours, overtime, and rework, this sander often pays for itself within months.

Ready to Upgrade Your Shop?
