

KALAMAZOO
INDUSTRIES, INC.

**BOOST SHOP PRODUCTIVITY WITH
THE DS20 20" DISC SANDER**

KALAMAZOO INDUSTRIES – HEAVY-DUTY EQUIPMENT FOR MACHINE SHOPS

WHY UPGRADE YOUR FINISHING EQUIPMENT?

Finishing is often the bottleneck in fabrication and machine shops.

Outdated or undersized tools waste labor hours, reduce consistency,

and slow throughput. The Kalamazoo DS20 is built to change that.

DS20 HEAVY-DUTY DISC SANDER

20" vertical disc
for large
workpieces

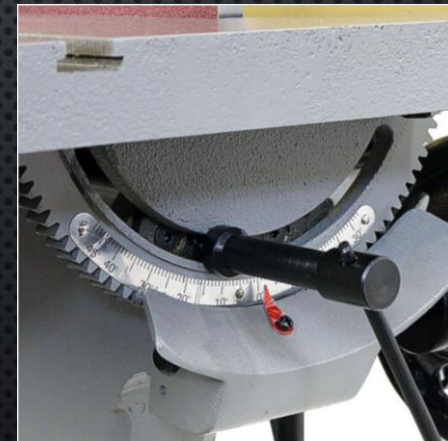

Rugged cast
iron frame for
vibration-free
performance

Tilting and
height-
adjustable
worktable

Dust collection
ready

Powered by a 2
HP industrial
motor

Designed for
precision,
speed, and
durability

KEY FEATURES & BENEFITS

Feature	Benefit
20" Disc Capacity	Handles large workpieces; faster finishing on big parts
Heavy-Duty Cast Iron Frame	Stable, vibration-free, built for years of use
Tilting Worktable (up to 45°)	Bevel edges and angle sanding with precision
Dust Collection Ready	Connects to external system for cleaner workspace
Consistent Edge Finishing	Uniform results, reduced rework and touch-ups
Easy PSA Disc Changes	Quick swap minimizes downtime
Powerful 2 HP Motor	High torque, efficient stock removal, continuous use

REAL-WORLD VALUE & ROI

Eliminates
finishing
bottlenecks

Reduces labor
hours and
overtime

Improves
throughput and
job turnaround

Machine pays
for itself within
months through
efficiency gains
