## **Built for Industry: The Kalamazoo S8D Vertical Dry Belt Sander**

Built for performance, durability, and precision — the Kalamazoo S8D Vertical Dry Belt Sander is the perfect solution for industrial sanding needs. Whether you're deburring, shaping, or finishing, this machine delivers power and reliability to handle the toughest jobs.

### **Why Choose the S8D?**

- Heavy-duty construction designed for industrial environments.
- Large 8" x 60" sanding belt for efficient stock removal and finishing.
- Vertical design saves space while offering excellent workpiece access.
- Adjustable work table for operator convenience and precision control.
- Powered by a robust 7.5 HP motor for consistent sanding performance.
- Easy belt changes and tracking adjustments to minimize downtime.
